If students choose to double major and/or minor, the following catalog rule applies: any course applied toward the completion of one major or minor may not also be applied toward the fulfillment of elective requirements in another major or minor.

**\*11 OF THESE HOURS MUST BE UPPER LEVEL.**

**30 upper level (300-400) credits are required for graduation. These credits could come from general education courses, an added minor, or additional biology/general electives above those required for the degree.**

**<sup>^</sup>It is strongly recommended that students electing this major also elect a minor. Consult your academic advisor for more information and advice on choosing a minor.**
